

Postcard Creation

WHAT: For my special project I want to create postcards with some of my favorite photographs. I have always loved stationery and writing letters, so this is something I am slightly passionate about.

I plan on creating simple photodesigns - some with typography and some without. Then I want to research printing places. This will be the hardest part, but I want to look online and around town for the cheapest and best quality prints.

WHY: I feel that postcards are a cheap way to share my work with family and friends on birthdays and holidays. I also want to see how well people like them and if they are a big enough hit to maybe take them to the next level and make some money!

Also, printing is one of my struggles. This project will help learn how to create quality prints from quality stores.

HOW: I plan on spending half of my time designing the cards and the other half researching. I'll ask around and see where other people have printed so that I don't have to spend as much money on printing.

RESULTS: I really hope that I enjoy doing this and that others like them as well. If I feel like this projects works out as well as I hope, I will look into creating packs of cards that I can sell on my website.
